

Inc. Village of Island Park  
Private Sewer Lateral Repair Program

## Enrollment Form 2026

***Enrollment Period: January 25th to March 10th***

We are excited to offer you the opportunity to participate in the Village of Island Park Private Sewer Lateral Repair Program. This program is designed to save you from the unforeseen costs and hassles of repairing or replacing your private sewer lateral.

Your private sewer lateral is the pipe that connects the plumbing in your home running under your front yard and connecting to the sewer main in the street. It is your responsibility as a homeowner to maintain and repair this underground pipe to ensure that there are no leaks or breaks. The average home in Island Park has its original sewer lateral from the 1950s that has exceeded its working lifespan of 50 years. If ignored, this outdated sewer lateral will break, crack, and leak, causing sewer backups in your home. Enrollment for this program begins **January 25th, 2026** and continues through **March 10, 2026**.

***You are currently enrolled in the Private Sewer Lateral Program.***

If you do not wish to change your enrollment status, kindly disregard this letter. If you wish to opt-out of this program, check the box below and return this form in the enclosed envelope prior to March 10, 2026.

*I wish to Opt-Out of the program. I understand by checking this box and opting out of the program, I will not be enrolled in the Private Sewer Lateral Repair Program.*
